

Southern Eye Associates is pleased to welcome you to our Clinic where "Seeing is Believing!" We now offer improved vision through the most advanced technologies. We can safely remove your cataracts and correct your vision to see more clearly. These procedures are an opportunity to invest in your eyesight and it will never lose its value.

#### **Basic Insurance Cataract Surgery:**

- For the person on a budget, good vision is still possible as long as you do not mind being dependent on glasses for both near and distance vision.
- You should expect to wear glasses **full time** after your operation.
- Out of pocket cost is limited to Medicare and/or insurance deductibles, co- insurance and co-payments.

#### **Advanced Cataract Surgery:**

- For people who want to improve their **distance vision** without the need for full time spectacle correction!
- We can achieve your goal of clear distance vision with only occasional glasses needed for near vision or reading.
- Monovision is also available upon request with Advanced Cataract Surgery.
- The ideal candidate includes hunters, golfers, and anyone who wants to drive without the restriction of glasses.
- This plan includes advanced surgical planning and testing.
- High Definition Aspheric Lens or Toric Lens, Limbal Relaxing Incisions and LASIK Fine Tuning will be used at your doctors discretion based on your individual need.
- In addition to your Medicare and insurance deductible, co- insurance and co-payments there is an additional fee.

#### **Multifocal Cataract Surgery:**

- For the individual who wants **freedom from any glasses**.
- Individuals desiring a more youthful appearance, active parents, grandparents, business professional, homemakers and people on the go.
- The plan includes everything in our power to make you 20/Happy; a Multifocal Lens, Special Testing, Astigmatism Correction, LASIK Fine Tuning as needed.
- Multifocal lenses help you to see both distance and near vision without glasses.
- In addition to your Medicare and insurance deductible, co-insurance and co-payments there is an additional fee.

***These procedures are an opportunity to invest in your eyesight which will never lose its value.***
